

ESCADA 2016 Eyewear Collection

The upcoming ESCADA sunglass collection is characterized by fashionable shapes, special effects and a sophisticated mixture of materials. The 2016 spring/summer collection flaunts classic, extravagant and fanciful shapes, both in simple and more sophisticated styles, in metal and acetate, in oversized and cat-eye shapes, reflecting the typical style of the ESCADA woman. Each model embodies a sense of urban glamour, refined elegance and femininity.

The glasses draw their inspiration from all those women who flaunt a naturally chic, head-turning look, embodying an expertly refined spontaneity and sophistication.

Besides classic black, beige and grey, the collection ranges from natural shades such as delicate blues and browns to cooler hues and an extensive array of reds and oranges.

SES404 col. 700

This oval oversized frame is the perfect embodiment of the chic 1950s, inspired by the great film star, Ava Gardner. Semi-transparent acetate gives these glasses a contemporary feel. Available in black, light brown and milky grey. ESCADA's elegant "E" logo is engraved on the temple tips.

SES401 col. T31

This elegant, classically shaped model sports a modern feel. The combination of acetate for the front piece and metal for the double bridge provides a highly refined detail. The colours reflect those of the ESCADA Resort Collection: black, shiny havana, shiny transparent blue, honey, opaline grey.

SES888 col. 300G

This style's metal frame is slender and sporty. The double bridge and vintage-style round lenses make for a particularly contemporary and trendy design. ESCADA's elegant "E" logo is engraved on the golden temple tips. Original colour combinations feature rose gold/black, palladium/petrol, palladium/dark grey, rose gold/beige.

SES396 col. 1FG

An extremely feminine model echoing the style of the 1960s. The rounded acetate and metal frame presents no sharp edges or corners. The ESCADA logo is engraved discreetly on the temples. Available in the following colour combinations: black, milky grey/brown, shiny havana, burgundy/opaline pink, blue horn/blue.

SES403 col. GGR

These refined sunglasses offer a modern reinterpretation of a quintessentially 1950s style. The elegant cat-eye shape demonstrates ESCADA's unswervingly keen eye for detail: fine lines on the front piece provide that extra something that makes them special. ESCADA's elegant "E" logo is engraved on the temple tips. Available in black and shiny brown, as well as striped cyclamen and powder.

SES887 col. 1AR

The sophisticated blend of materials in this wide, cat-eye model makes for a contemporary pair of glasses. The metal frame is extremely light and slender. The front piece is characterized by decorative acetate inserts, with matching temple tips.

Available in various colour combinations: shiny black/havana, antiqued brown/opaline beige, burgundy/mother of pearl, plum/mother of pearl, blue/mother of pearl.
