2017 Sunglasses Collection

New, colourful and “rebellious”: introducing the new women’s eyewear collection by Police. A completely renewed line of eyewear, starting from the new logo, with a touch of authentic femininity.

An explosion of bold styles play around with new and oversize shapes, with camou-floral colours and rubber temples with real glitter. Sun 2017 is the first collection of Police eyewear designed by Enrico Furlan, new House Brand Director of De Rigo Vision.

Flow 1 - SPL339 col. H93G

This oversized style is sure to turn heads. The absolute star of the show is the frontpiece, in aviator form, made from a flat, flash gold mask. The metal temples are ultra-thin and flexible to ensure maximum comfort.

Savage 1 - SPL407 col. 700F

Sexy, rebellious glasses with ultra-feminine oversized frontpiece and camouflage-floral pattern on the temples.

SPL412 col. 9M5X

The rounded shape of the fuchsia coloured clear acetate frontpiece is enhanced by the double gold bridge. The profile of the temples resembles the form of the Police “wings”, while, in terms of materials, a special soft rubber with sparkling glitter makes its very first appearance.

Goldeneye 3 - SPL406 col. 579X

This oversize aviator style is a timeless classic, with ultra-light silver metal structure and large aviator lenses.
